HOW NAVIGABLE
ARE FLUID
**MUD
LAYERS?**

A large industrial ship, possibly a dredger, is shown in a body of water, with a city skyline visible in the background.

6 TERRA ET AQUA

...mud is culture...

The extraordinary benefits of a house made of mud

Mud, a traditional construction material in Africa, more easily keeps buildings cool compared with concrete. Architects are finding ways to keep mud's beauty and function alive in a warming world.
